

Maksym Berezhnyi

Senior React / Front-End Developer

Kyiv, Ukraine | m.berezhnyi.dev@gmail.com
linkedin.com/in/mberezhnyi-dev | mberezhnyi.com/cv

PROFESSIONAL SUMMARY

Senior Front-End Developer with 10+ years of experience specializing in React, TypeScript, MobX, and Tailwind CSS, with a proven track record of modernizing legacy ASP.NET (WebForms/MVC) systems. Progressed from UI Developer to technical lead on front-end initiatives, mentoring engineers and architecting complex web tools (site and reporting builders). Early adopter of AI-assisted development (Cursor IDE), meaningfully cutting feature delivery time while maintaining clean architecture and design precision.

TECHNICAL SKILLS

Core & Frameworks	React, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS
State & Data	MobX, Context API, REST API integration
Styling & Design Systems	Tailwind CSS, Less, Responsive Web Design, Design Systems / Style Guides
Legacy Modernization	ASP.NET (WebForms / MVC) front-end refactoring, UI redesign, performance optimization
Tooling & AI Workflows	Cursor IDE, Webpack, Vite, Git, GitHub, Visual Studio, Figma
Leadership & Process	Technical mentorship, code reviews, UI/UX architecture, Agile/Scrum

PROFESSIONAL EXPERIENCE

Brightgrove | August 2014 – Present

Senior Front-End Developer (2018 – Present)

- **Technical Ownership & Leadership:** Lead front-end development across key web products, mentor junior developers, conduct structured code reviews, and streamline team onboarding — cutting new-hire ramp-up time roughly in half.
- **AI Workflow Integration:** Integrated Cursor IDE and AI-driven workflows into daily development, noticeably speeding up component generation, refactoring, and complex logic implementation.
- **Modern Architecture:** Architect and deliver state-driven web applications using React, TypeScript, MobX, and Tailwind CSS, ensuring high modularity and long-term maintainability.
- **Legacy Modernization:** Drive front-end refactoring for legacy ASP.NET (WebForms/MVC) applications, trimming bundle sizes and bringing initial page load times down by roughly a third.

UI / Front-End Developer (2014 – 2018)

- Developed pixel-perfect, cross-browser responsive interfaces from Figma/design specifications using CSS/LESS and modern JS.
- Created modular HTML email templates and maintained UI style guides across company products.

KiwiArt | UI / Front-End Developer | March 2014 – August 2014

- Developed custom responsive themes for WordPress, PrestaShop, and Shopify; integrated custom jQuery/JS plugins.

NitraLabs | UI Developer | June 2013 – March 2014

- Built semantic HTML/CSS layouts for e-commerce platforms and internal management software.

PROJECT HIGHLIGHTS

Custom Drag-and-Drop Site Builder (React / MobX / Tailwind)

Architected an interactive site constructor enabling non-technical users to build customizable web pages, cutting typical setup time from hours to minutes.

Interactive Report Constructor (React / TypeScript)

Designed and implemented a complex reporting tool featuring dynamic charts and filterable data tables for enterprise analytics.

ASP.NET Legacy Application Redesign

Engineered the front-end overhaul of an established enterprise product, replacing outdated server-rendered layouts with modern React components without breaking backend logic.

EDUCATION & CERTIFICATIONS

Master's Degree in Foreign Languages, Literatures & Linguistics (English Philology)

H. S. Skovoroda Kharkiv National Pedagogical University (2006 – 2011)

Provides Advanced (C1) English communication, strong technical documentation, and effective teaching/mentoring capabilities.

- Understanding TypeScript – Maximilian Schwarzmüller (Udemy)
- React Marathon – SoftServe
